Forensic Scene and Evidence Photography / Videography

We have provided Forensic Scene and Evidence Photography for over three decades, and continue to expand our services. We were the first agency in Colorado (and of the first nationwide) to bring digital photography and digital videography – this included to the Larimer County & Weld County Coroners' Offices in early 2003 – 20 years ago!

For civil and criminal litigation, we provide full services for indoor and outdoor scenes, vehicles, and evidence. We follow all protocols for evidentiary documentation – from photographs and videos, to memorandums and logs detailing the work performed.

- All assignments follow standard forensic and evidentiary protocols: 1) Assignment ID Card; 2) Multi-Perspective Distant, Mid-Range, and Close-Up; 3) Evidence and Detailed Area Specific; 4) Appropriate Lighting Techniques; and 5) With and Without Scales and Markers.
- Standard Photography and any appropriate Specialized Photography used: 1) Macro photography; 2) 360 Photography; 3) LiDAR Scan 3D Photography; and 4) Drone Photography and Videography.
- All photography and videography assignments include: 1) Assignment Report and Photography / Video Log; 2) Original Files and Duplicate Files Renamed to the Assignment; and 3) Contact Sheet of All Photographs with Name, Date & Time Stamp. Scene Diagrams are completed as appropriate.

We are available to fully document any size and location scene – indoors and outdoors, motor vehicle collision locations, involved motor vehicles, reported crime scenes, and evidence inspections.
